

Dear Bear Class

In our final term together, we will be using all our learning to explore the world around us at greater depth.

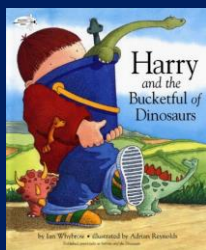

As Explorers, we will be using sources of information to help us better understand what we discover and use our ever improving vocabulary to describe to others what we have found out. This will

include the depths of the oceans, far out to space and the tiny microscopic world of minibeasts.

Alongside this, we will be discovering different cultures from around the world.

If you celebrate any particular custom or tradition as a family, or as a wider

community, Bear Class would

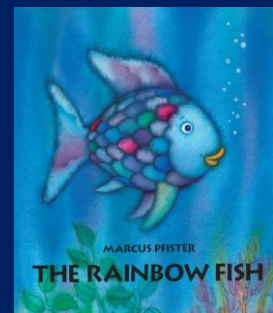

love to hear about it and

celebrate it. We will have a

celebration of all we have achieved over the

Year, on the Afternoon of July 14, all are

welcome to join celebrate with us!

Thank you for all your effort and well done for how far you have come this year!

Mrs Woodhead
